**CHESHIRE, CONNECTICUT** – The joint venture team of The Lane Construction Corporation's subsidiary, S.A. Healy Company, and Salini Impregilo have won a design-bid-build contract in Indiana, valued at \$188 million.

The Three Rivers Protection & Overflow Reduction Tunnel (3RPORT) is a combined sewer overflow (CSO) tunnel project located in Fort Wayne. It includes a deep rock tunnel, drop shafts, and consolidation sewers, to collect and convey combined sewer overflow from eight locations along the St. Mary and Maumee Rivers. Once completed, the CSO tunnel system will reduce 90% of combined sewage overflows into the rivers, which occur during large rain storms.

Work is expected to begin in the spring of 2017 and to be completed by mid-year 2021.

The 3RPORT CSO tunnel project is Salini Impregilo and S.A. Healy's fourth CSO tunnel project together in the USA. S.A. Healy and Salini Impregilo are currently working on the Anacostia River Tunnel project in Washington, D.C., along with Parsons Construction Group, and the Dugway Storage Tunnel project in Cleveland, Ohio. Together the team has previously completed the West Side CSO project in Portland, Oregon. S.A. Healy and Salini Impregilo have teamed on six completed or ongoing tunnel projects totaling over 20 miles of bored tunnels.

### **About The Lane Construction Corporation and S.A. Healy Company**

Founded in 1890, the Lane Construction Corporation is a leading U.S. construction company specializing in heavy civil construction services and products in the transportation, infrastructure and energy industries. It is owned by global construction leader Salini Impregilo. The company has a unique combination of capabilities including public-private partnerships/innovative financing and joint ventures; large, complex design-build and bid-build projects; as well as the ability to produce and install asphalt, aggregates and concrete. Lane's resources, innovative solutions and emphasis on safety and quality control—combined with its expertise in engineering, procurement and construction project management—produce high-quality results.

Its wholly owned subsidiary, S.A. Healy Company, is a leading U.S. tunnel and heavy construction contractor with over 85 years of continuous experience that has played an integral and pioneering role in the tunneling of America. Since its founding in 1923, the company has tunneled over 100 miles—more than one-half million feet— and completed more than 200 projects worth billions of dollars.
